HOUSE FURNISHING WARE
ROOMS, NOS. 5 & 7 WASHINGTON
SQUARE, OPPOSITE THE PARK.
MANUFACTORY NO. 23 BRIDGE ST.

HAVING completed the arrangements in
fitting up and furnishing my new store,
I would invite the attention of purchasers to
my stock of Furniture which is principally of
my own manufacture or finish, and at prices
which shall be satisfactory.

Having been engaged in manufacturing and
conducting the cabinet business for the past
sixteen years, I feel warranted in saying that
my work is executed by none and my arrange-
ments for the future such as will in all respects
be satisfactory to my customers.

To my many friends and patrons who, turn-
ing aside from the regular and beaten path of
trade, have contributed towards what I may
have attained of success in business, I return
my sincere thanks and hope for many years to
come to serve them with the same good and
substantial work as of old.

AMERICAN AND FOREIGN OFFICE.
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Wash-
ington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards
of twenty years, continues to accept pa-
tents in the United States; also in Great
Britain, France and other foreign countries.
Caveats, Specifications, Assignments, and all
Papers or Drawings for Patents, executed on
liberal terms, and with despatch. Research-
es made into American or Foreign works, to
determine the validity or utility of Patents or
Inventions, and legal or other advice ren-
dered in all matters touching the same. Co-
pies of the claims to any Patent furnished by
remitting One Dollar. Assignments recorded
at Washington.

This Agency is not only the largest in New
England, but through its inventors have ad-
vantages for securing patents, or ascertaining
the patentability of inventions, unsurpassed by
if not immeasurably superior to any which can
be offered there elsewhere. The testimonials
below give proof that none is MORE suc-
cessful at the PATENT OFFICE
IN THE BEST PROOF OF ADVANTAGES
AND ABILITY, he would add that he has
abundant reason to believe, and can prove
that at no other office of the kind are the
urgencies for professional services so moder-
ate. The immense practice of the subscriber, dur-
ing twenty years past has enabled him to ac-
cumulate a vast collection of specifications and
official decisions relative to patents. These
specimens his extensive library of legal and me-
chanical works, and all accounts of patent
granted in the United States and Europe,
render him able, beyond question, to der-
ive superior facilities for obtaining patents.

All necessity of a journey to Wash ton,
to procure a patent, and the usual great delay
TESTIMONIALS.
"I regard Mr. Eddy as one of the most ca-
pable and successful practitioners with whom
I have had official intercourse."
CHAS. MASON, Commissioner of Patents.
"I have no hesitation in assuring Inventors
that they cannot employ a person more com-
petent and trustworthy, and more capable of
putting their applications in a form to secure
for them an early and favorable consideration
at the Patent Office."

EDMUND BUIKE,
Late Commissioner of Patents,
Boston, February 8, 1858.

"Mr. R. P. Eddy has made for me THIR-
TEEN applications, on all but one of which
patents have been granted, and that one is
now pending. Such unmistakable proof of
good talent and ability on his part leads me
to recommend all inventors to apply to him
to procure their patents, as they may be sure
of having the most faithful attention be-
stowed on their cases, and at very reasonable
charges."

From Sept. 17th, 1857, to June 17th, 1858,
the subscriber, in course of his large practice,
made, on twice repeated applications, SIX-
TEEN APPEALS, EVERY ONE of which
was decided in his favor, by the Commis-
sioner of Patents

R. H. EDDY.

COFFINS and other funeral appa-
ratus.—The subscribers have on hand
and will make at short notice coffins of every
description of wood and finish; also robes,
trimmings, &c., and if desired they will at-
tend to the funeral arrangements and furnish
all articles connected with and used on these
mournful occasions.

They have also a method of preserving a
corpse for any desirable length of time, until
friends and relatives can arrive from Europe
or distant parts of our own country.

If required they can give the best of refer-
ences as to their mode of attending to matters
of this kind.

Orders for the whole or part of these ar-
rangements are solicited, and will be prompt-
ly executed, with the utmost regard for the
feelings of those concerned.

LACON'S CURING'S and the veneral
hospital practice of Paris and London. As
some persons afflicted with seminal debility
and diseases of the Genito-urinary organs
are not aware of the fact, Dr. LAR-
MONT takes this mode of informing them
that he is the only graduate in New York City
who is exclusively treating and curing these
diseases, and whose correspondence with the Eu-
ropean hospitals enable him to adopt the latest
and most radical treatment. During the
old stand most severe cases. All who have
been unsuccessfully and barbarously treated
with Mercury, Copahs, Injections, Causticiza-
tion, Quack Specifics, Antidotes, &c., will be
presented with proofs by Dr. Larmon that he
will permanently cure them in the shortest
possible time. Patients have private and so-
phisticated rooms. Those living at a distance can
be cured at home, through the express and
mail, as well as privately as at the office;
as the medicines are convenient, pleasant, and
do not cause sickness.

REMOVAL.
The Office and Job Printing establishment of the NEWPORT DAILY NEWS and WEEKLY JOURNAL has recently been removed from 144, to 123 Thames St. The undersigned hopes to see his friends and to receive a continuance of the patronage already bestowed upon him.
GEORGE T. HAMMOND,

The Hingwriting on the Wall.

Never during the administration of "poor Pierce" did the people spurn him with more emphasis, than they now have his sage successor. From an old man, with nothing more to expect of human advancement or reward, and looking alone to the best interests of his country, position has been transformed Mr. Buchanan into a vain, weak aspirant for further honors, and made him reckless alike of the national honor and welfare, of the demands of common honesty, of the fundamental principles of Republicanism, and his own future fame. To say that thousands, and tens of thousands who voted for "the man Buchanan," because of his supposed conservatism, and the "piousness of his intellect"—now heartily wish that unfettered by sham reasoning, they had voted for, and elected a man of courage, mind and nerve, with honesty enough to risk the government properly administered, and force enough to insure the realization of his wishes, would be within the truth, and we firmly believe that the 1,350,000 votes registered for Fremont in 1856, would to-day be swelled to a round Two Millions, if the people could have the privilege of choosing between the rival candidates. The last hope from the wisdom of the "Sage of Wheatland," has faded from the popular mind, and the states that elected him, to-day spurn him. Let us look at the recent results:

	1856	1858
Rep. Dem.	Rep. Dem.	
Senato	26 23	25 22
House	36 63	61 45

This state was one, which secured Mr. Buchanan's Election.

Pennsylvania.
Has been swept so clean of vestiges of sham Democracy, that 25,000 majority more or less make no difference to the result.

Illinois.
In 1856 gave Mr. Buchanan 106,348 votes, or 51.59 majority. 57 Counties now give a Republican majority of 25,800, and making generous allowances for the other 43, her Republican State Ticket will have 10,000 majority! If these three states had cast only 40,000 more votes for Mr. Buchanan in 1856, then they have now done our nation would have been saved the disgrace and expense of this most unfortunate administration.

Massachusetts.
Firm as old Plymouth Rock—sends along her solid 38,000 plurality—and her unbroken delegation to Congress.

New York.
Endorses "Seward's Abolitionism" to the tune of 17,083! and can make it a round 60,000 whenever that is wanted in a Presidential Campaign.

New Jersey.
Who in 1856, gave Mr. Buchanan 18,600 plurality, to-day sends an unbroken opposition Delegation to Congress.

Delaware.
Which in 1856, gave Whitley, Dem, for Congress 1751 majority, to-day gives him a bare 300, and where Buchanan had 8000 votes, and Fremont 3081 the opposition local ticket has been elected in two-thirds of the State!

And so marches on the grand Republican procession of States.—Ohio, Wisconsin, Michigan, Iowa, Maine, New Hampshire, Vermont, Connecticut being all so sure, that the only interest is to see how high the majesties are to be piled.—The North is solid for once, and Mr. Buchanan's party is strictly sectional, its beginning and its end being South. All hail the hour of Victory for Freedom! Let the hearts of the people rejoice, for the days of the Slave power are numbered.

More Ruffianism in Baltimore.

About a month since, a man was arraigned in the courts of Baltimore on a charge of incendiarism. The principal witness against him was a police officer named Benton. It was desirable in order to save this man from the consequences of his crime, to the disposal of this principal witness, so the brother of the man, Henry Gambrill, deliberately murdered him. Gambrill was arrested and placed on trial for the murder, the principal witness against him being another police officer named Rignall. To save Gambrill's neck from the halter, it was necessary that Rignall's mouth should be shut, and a fellow named Corrie, another of the gang of ruffians to which the Gambrills belonged, walked deliberately into Rignall's house last Friday evening, and shot the unfortunate man dead in the presence of his wife and children. Baltimore must be a delightful place to live in, and such doings must be exceedingly favorable to the course of justice.

Mechanics' Association.
To-night at half past 7 o'clock, there will be a lecture before the Mechanics' Association, at their Hall on Thames St., free to all members, on the "Influence of Intellectual Cultivation upon Material Progress," by Wm A. White, Esq.

Mr. White expects to show that men of action are more deeply indebted to men of thought than is generally admitted; and that the thinker and the worker are not so independent of each other as we usually consider them. We can assure our readers who are members of the society, that they have in store an evening of profitable amusement.

We hope that the Society will attend the "Tuesday evening gatherings" at their rooms. They will usually hear something to instruct and please them, and always have the opportunity of meeting their brother members, and cultivating that kindliness of feeling which can only be secured by friendly contact.

Remember to-night, and those of you who can, attend this first lecture by Mr. White.

There was a slight error in our account of the robbery at the furia house of John G. Weaver, Esq., in yesterday's paper. The articles were taken from the "cheese house," on the premises; and we were mistaken in our statement that the house was not occupied. The dog has since been found in the city, alive and well. Being a brave and very discreet watch-dog, he undoubtedly left on the approach of the robbers.

We are pleased to observe that the three minutes rule is strictly enforced by those taking the lead in the Men's Prayer Meeting. This is highly necessary, otherwise, as is sometimes the case in the prayer meetings of our churches, some half a dozen individuals might monopolize all the time. Short, pithy exhortations and prayers, interspersed with singing, are what give interest to a prayer meeting.

The Gallagher stabbing case will come up for trial in the Court of Justices this morning, at 10 o'clock, by special assignment.

Good Move in New York.—We see by the New York papers that a Female Union Prayer Meeting has been commenced in that city, in the John Street Methodist church, and held daily (except Sundays) from 12 o'clock M. to a quarter to 1—three quarters of an hour. It is a meeting for sewing girls and female operatives in that quarter of the city—free from any denominational peculiarities, and is under the management of a corps of Christian ladies of different denominations—when, in turn, conduct the exercises. None but females attend. There are not less than seventy-five thousand to eighty thousand female operatives in the city of New York, and the Express suggests the commencement of similar meetings in various sections of it.

W(ri)ng Disturbance.—Some wage have asserted that certain Whig Makers offered Mr. Spalding a handsome sum to suppress the manufacture of his Castor Oil and Rosemary Hair Wash, from the fear that it would destroy their trade. Seriously, this preparation is the best re-producer of hair, and also adorns of it, that is known. Who would be without rich glossy locks, when 25 cents will procure them? Sold by J. Russell Spalding, 27 Tremont St., opposite Museum, Boston, and all dealers in Newport.

REVIVAL RESULTS IN PHILADELPHIA.—During the recent revival in Philadelphia there were added to one denomination by profession 3010, to another 1800, to another 1500, to another 1200, and so on, till the aggregate was above 9000, and over 10,000 conversions had taken place, all within the current year.

A large brick tenement house but recently erected at Holyoke by the Pinfield Shakers, at an expense of between \$5000 and \$6000, was totally destroyed by fire last Tuesday night. It was occupied by ten or a dozen families, who lost nearly all their furniture.

So great has become the cannibal fever in the Wash Valley, that the Lafayette (Ind.) Courier says it is in contemplation, by one Bachelor Club of that city, to organize a "Board of Health."

The whiskey market at Salt Lake City is flourishing. The article is retailed at twenty-five cents per drink. A bar-keeper purchased \$75 worth of whiskey in the States, and sold it at Salt Lake for \$700.

On Saturday night a man, named John Bray, arose in his sleep, at St. Louis, and taking his youngest child in his arms, walked from his room into the Mississippi river, and was drowned.

Col. Sam Pike, of Kentucky, is about to commence the publication of a new paper, in Covington! The 47th enterprise of the kind in which he has been engaged.

The railroad between Hagerstown and Chambersburg, Md., it is said, has been purchased by the Hon. Simon Cameron.

A house in Baltimore was entered on Tuesday, during the absence of its owner, and robbed of 20 wagon loads of furniture.

Prayer meetings are regularly held in the Legislative Hall of the State of Vermont.

SHIPWRECK, &c., AND LOSS OF LIFE.—The British bark Claude, from Quebec, for Sunderland, experienced a tremendous gale on the 24th, which lasted several days, and became a complete wreck. Capt. Chessell's wife and several of the crew were washed from the deck and lost. The balance, six in number, were saved by the ship Isaac Bell and brought to New York. The lost seamen were Henry Ede, George Knowles, George Burgess, John Dunbro, George Mitchell, Philip McCreo and Barney Sheely.

Ship Isaac Bell at New York from London, reports fell in with, in lat. 42 40, lon. 57 49, the wreck of British bark Claude, of Shoreham, dismasted and waterlogged, and took from her the captain, mate and four seamen.

Ship Cornelia Lawrence of New York, was burned in the bay at Mobile on Saturday, together with 800 bales hay. She was nearly 1500 tons burthen, and valued at \$80,000.

On the morning of the 30th, a vessel was seen on fire off the South side of Sable Island. About noon a large steamer came from the eastward, went to the wreck, and remained two hours. She then proceeded eastward at full speed. The day was fine and the sea smooth. After the steamer left nothing was seen of the burning vessel.

The schooner "Three Brothers," of Gloucester, went ashore at Port Hood on Monday week and was totally lost. ALMOSA A COLLISION.—The brig Melvin, of Boston, Capt. Sutton, which arrived at New York on Monday from Key West, reports that on October 30, while off Cape Henry in a dense fog, saw the steamer Augustus, for Savannah, which passed within two feet of her (the Melvin's) bow, at the extraordinary and dangerous speed of 14 knots per hour. No damage was done, however.

LOSS OF SHIP ANTELOPE.—Gallant Conduct of Part of her Crew.—Ship Antelope of New York, Capt. Clarke, before reported wrecked on the Varacels, while on the passage from Bangkok to Hong Kong, became a total loss. The crew left her in two boats, but during the night they separated. A native fisherman, well armed, ran foul of the captain's boat, and compelled her to give up the few articles saved from the ship. In receiving them the ship's boat accidentally dropped alongside the fisherman, and the pirates supposing her crew completely covered were thrown off their guard. Without any previous plan of operations, the sailors dashed on board the piratical fisherman, seized their arms, put every one of them to death, took possession of the prize, and carried her to Hong Kong in triumph. The mate's boat at last accounts, had not been heard from, and fears were entertained that she had been captured by pirates.

CURIOUS FACT.—An instance of "what printers' ink can do," has just been brought to our notice, and it is certainly not less curious than useful as a hint to those who would sell goods to the best advantage. At a sale some time since, in this city, a lot of miscellaneous and fancy articles, which had been very liberally advertised, brought a very high price. Subsequently some of the purchasers having put up a portion of the same goods at another sale, which had not been so liberally advertised, did not realize on them more than one-third of what they had given.

One fact like this speaks volumes. Judicious advertising will, in fact, sell anything well, and that not in auction rooms alone, but anywhere. There are purchasers in the world, if they can only be got hold of—and the way to get hold of them is to bring the facts before their eyes. That is the only way, and yet enterprising as our country is, it does not advertise the hundredth part of what it might, and that profitably.—Philadelphia Bulletin.

Two farmers riding along together met a large number of clergymen, and one of them said to the other, "Where are all the parsons coming from?" To this his friend replied: "They have been at a visitation." The other, no wiser than before asked, "What's a visitation?" The answer was, "Why, it is where all the parsons go once a year and swap their sermons." His friend thus enlightened, quietly remarked, "Hang it, but our fellow gets the worst on it every time."

KICKING COWS.—I have a way to stop kicking cows, or to keep them from stepping while milking. It is this: I begin quite moderate, and when they hoist a foot I give the teats a jerk. By following this up it will stop any cow, for a cow very much dislikes to have her teats jerked. If a cow gets in the habit of starting off, I hold on to the teats as hard as I can, which soon cures her of that caper.—Genesee Farmer.

At Cork, Ireland, a few weeks since, 800 fathoms of the first piece of the Atlantic cable laid, which had been fished up, were sold at less than four cents per foot. They are not so enthusiastic about the cable in England as to cut it up for jewelry. In this country 8 miles of it had been sold for 25 cents an inch.

The German journal of St. Petersburg speaks of Turkey as falling to pieces from incurable disease, in spite of the efforts of the Sultan and many Turkish statesmen to extirpate the cancer that gnaws into the vitals of the Empire.

JUDGE DOUGLASS'S SLAVES.—The Chicago Press and Tribune says: "We betray no consciousness when we say that Mr. Slidell, when in this city, declared that the condition of these slaves was a disgrace to their owner; that they were badly fed, badly clothed, and excessively overworked."

As an effect of the financial revulsion of last year, it is stated that first class stores in Chicago, which one year ago brought \$1,600 per year readily, are now offered for \$300.

The Hartford Times, noticing the death of an editor, says "he was a high-spirited gentleman, and a pungent writer." Here is an instance where the substitution of a wrong letter for the right one changes the whole meaning of the sentence.

Captain's help.—After a marriage ceremony, having been performed in one of the churches in this city, last Sunday, the bride and groom, accompanied by a large number of friends, according to the established custom, shed tears, at sight of which the groom followed suit, with a copious flow of the briny fluid. After his friends succeeded in calming him, he said he could help it, for he felt as big about it as she did.—Adrian Express.

One of our Philadelphia exchanges gives an account of an attempt to commit suicide, a few days ago, in that city, and says that though two ounces and a half of laudanum had been taken, and nothing done for several hours, the unfortunate was saved and restored by artificial respiration.

A very interesting "golden wedding" was celebrated at Lynn, Mass., last week. The parties were Israel Thilly Buffum and his wife. Mrs. Buffum is living in the house in which she was born, and the tables for the 50th wedding feast were spread in the same room they occupied in 1803.

Marcus Morton, when elected Governor of Massachusetts, received a majority of one vote. That one vote came from a man in Byfield, who went reluctantly to the polls after his brother, as a last resort, argued on him that if someone else was elected, he would never be able to purchase another drop of liquor.

The Pacific Water works are in full operation at Hoboken, the applications for water being numerous, and the pipes are frequently broken. The commissioners were allowed \$75,000 to introduce the water, but did it for \$33,000, a rare instance of municipal honesty, which might be amply copied to advantage.

A young and handsome widow has been tried for her life in North Carolina. She shot an officer who came to enforce an execution, which he did not do in the gentlest manner. The jury thought the widow was too handsome to be hanged, and so they returned a verdict of not guilty.

The elastic tissue packed within each hoof of a horse, is so folded backward and forward, that it is only one-fourth of an inch from the ground, and in a good state of preservation, one of them, the bones of a man of large frame, the teeth much worn, but perfectly sound.

A rare collection of seventy-seven U. S. cents, of ancient date, was sold in Philadelphia on Monday, for the sum of \$139 60. The Washington cent of 1792, of extremely rare die, brought \$23 60. Nineteen pieces sold for \$106 00. The purchasers were chiefly antiquarians.

The Washington Star says the company that recently purchased the turnpike from that city to Baltimore, will shortly plank it in a manner suitable for the use of coaches drawn by steam power, capable of making the trip in two hours.

The skeletons of four Indians have been examined in Martha's Vineyard, Mass. They were only one or two inches from the ground, and in a good state of preservation; one of them, the bones of a man of large frame, the teeth much worn, but perfectly sound.

There are now 150 Foundling Hospitals in France, which says the London Dispatch, are sufficient to receive all the children which are abandoned by their parents in that country. One hospital in Paris takes in about 6000 children annually.

Five of the family of Truman Hopkins, of Narragansett, Ct., have died of the cholera fever, within thirty-seven days; and it is a singular fact that three of the family of his brother John Hopkins, died within a few days of each other, a year or two since.

A Judge out west has recently decided that it might be the inability to sign another man's name to a check in place of your own; but when you draw the money on the check, and spend it, there is a great deal of sanity in the proceeding.

About thirty acres of land on Windrup's Neck, in New London, has been fenced in by squatters the last summer. At the time Arnold burned the city, the records were destroyed, and no owners have claimed the land, which has since then been unoccupied.

THE BETS ON THE NEW YORK PRIZE FIGHT.—A letter from New York says Mr. Greeley's wife, who is said to be the daughter of a wealthy man in Troy, won \$2000 on the result of the fight, and his father-in-law won \$30,000. Is not New York a great State, and is not Troy considerable of a village? Does it not speak well for the morals of a community, when a woman stakes money on the probabilities of her husband being able to pound and beat another man till he is hammered to a jelly and overcome?—Boston Traveller.

HAZARD & CASWELL'S
PURE & GENUINE LIGHT STRAW
COLORED MEDICINAL
COD LIVER OIL,
PREPARED FROM SELECTED LIVERS ONLY.

The great remedy for Coughs, Colds, Consumption, Asthma, Rheumatism, Scrofula, Indurated Wasting, General Debility, and all diseases arising from deficient nutrition.

Professor Parker, in the "American Medical Monthly," says—
"We have had patients use it, who had tried almost every manufacturer's oil, and give this the decided preference. It is easily digested, and does what is expected of it. It is of a light straw-color, has none of the rancid fish odor, but is sweet and pleasant."

Professor Palmer and Gunn, in the "Pensinsular Medical Monthly," say—
"We pronounce it to be as free from color, odor and taste, as Cod Liver Oil seemingly can be."

From Professor A. A. Hayes, State Assayer of Massachusetts:
"GENTLEMEN.—I have subjected to chemical analysis the Cod Liver Oil prepared and put up for sale by Messrs. Hazard & Caswell, of Newport, R. I. It proves to contain, of necessity, the iodine compounds, essential to efficiency of action; and in comparison with the finest specimens I have seen of foreign or domestic origin, it takes the highest place."

The importance of having a reliable source from which this valuable remedy, in a state of purity, can be obtained, leads me to recommend, with confidence, this excellent article.

Respectfully,
A. A. HAYES, M. D., Assayer to State of Massachusetts.

The testimony of every Resident Physician corresponds with the opinion of Professor Hayes, viz.:
James V. Turner, M. D., Theo. C. Dunn, M. D., David King, M. D., H. E. Turner, M. D., Daniel Watson, M. D., W. Argyle Watson, M. D., Samuel W. Butler, M. D.

HUBBELL, Chemist, of Philadelphia, says:—
"It is unequally by that of any other manufacturer, for freshness, freedom from taste and odor. It is more efficient than any similar article yet offered."

At the price of not over one kept by the dealer, is perfectly sweet and palatable, not requiring to be manufactured into emulsions or jellies to conceal a nauseous taste, as inferior Oils do.

The testimony of hundreds, to the same effect, can be presented, but any one acquainted with the sensible properties of the Oil will at once perceive its great superiority over any hitherto offered to the public. Be certain to observe, on the label of each bottle, the signature of Hazard & Caswell, and also upon the metallic capsule covering the cork.
